

Review Reports

Many reports can be applied to different settings for a consistent understanding of student progress:

Report Type	Teacher	Administrator
Proficiency Pie Chart	Use to see overall performance of class	
Standards Bar Chart	Identify standard areas of weakness/ strength in class	Identify standard areas of weakness/ strength across a grade or district
Comparative Reports – Standards or Proficiency	Look at two assessments in the class (or in a series) to note growth/ changes	Compare two teachers, buildings, or assessments to analyze needs. Also, look across years to see changes in a given grade
Assessment Scores	See overall proficiency across sections for each student. Useful for cohorts or identify areas of need for support staff.	
“Any Two” Scatter Plot	Compare performance across two measures; see similarities across subject areas or between diagnostic and actual exams.
